

This collection is a partial index of records for the localities listed below as of April 2010. The table below shows the number of records by locality. Localities not listed may not have any records in this collection.

Most of these records date from the time period indicated in the columns below; however, there may be records before and after these dates. Record counts where the locality information was incomplete are included below under the country name. Because of this, you may wish to search only by country.

Some of these records may have been included in the former International Genealogical Index (IGI). As this is an index of records compiled from various sources, it is strongly recommended that you verify the information in original records. Due to privacy laws not all records may be displayed.
